

SUBMISSION TEMPLATE : SHORT REPORT

*Completing this template replaces the Short Report

EMI – 1 ATMOSPHERIC DETERIORATION AVOIDANCE

Project Name: _____

Project Number: GS- _____

Points available: 3

Points claimed: _____

Criteria	Points available	Points claimed
Ozone Depletion Potential - Refrigerants	0.5	_____
Ozone Depletion Potential - Insulants	0.5	_____
Global Warming Potential (GWP)	1	_____
Ozone Refrigerant Fugitive Emission Management	1	_____

Summary Table:

The following qualifying equipment is proposed within the fitout:

[complete table below]

Equipment	Type of refrigerant/gas	Mass of refrigerant/gas

I confirm that I have attached supporting documents that support these claims

Points available: 2

I CONFIRM

Additionally where ODP and/or GWP claimed:

I confirm that no qualifying equipment has been provided in the project. [Please see attached supporting documents that support these claims]

OR

The following insulation applications are proposed within the fitout:

	Insulation	Compliance
A		
B		
C		
D		

[Please see attached supporting documents that support these claims]

I CONFIRM

< See next page for Refrigerant fugitive emission management >

Refrigerant fugitive emission management

Where **no** refrigerants are used in the project, OR if all refrigerants have an ODP of zero and a GWP of 10 or less, the point for refrigerant fugitive emission management is 'Not Applicable' and is excluded from the points available, used to calculate the Emissions Category score.

I confirm that this this point, under refrigerant fugitive emission management, is 'Not Applicable'

I CONFIRM

[Insert the following details:

- outline the design and intended operation of the refrigerant leak detection system(s) and if the additional point is claimed, of the refrigerant recovery system(s)

[Points available: 0.5]

- and where a refrigerant recovery system provided, please provide a description of the refrigerant recovery system.

[Points available: 0.5]

< See next page for attachment requirements, checklists and author sign off >

Supporting Attachments:

1. Attach **Manufacturer product datasheet(s) OR Letter from supplier** (see checklist below)
2. Attach **Evidence of Properties** (see checklist below)

Checklist: Evidence of Properties

Please confirm that the following is included in the Evidence of Properties	Yes/No
Provide evidence of the refrigerants/gas clearly demonstrating for each refrigerant/gas referenced in the short report, the generally accepted ODP/GWP as published within reputable sources (see References in Technical Manual).	

Checklist: Manufacturer product datasheet(s) OR Letter from supplier

Please confirm that the following is included in the Manufacturer product datasheet(s) OR Letter from supplier	Yes/No
Each qualifying equipment as referenced in the short report, clearly identifying the equipment, the type and mass of refrigerant/gas charge; and/or	
Each applicable (i.e. non-woven) insulation product referenced in the short report, clearly demonstrating that the product is free of ozone-depleting substances in both manufacture and composition.	

Discussion: Insert any issues you would like to highlight and clarify to the Assessment Panel.
